Michael R. Cables Elected MCAA Vice President & Treasurer *Oregon-based contractor brings perspectives gained through business travel*

ROCKVILLE, MD—Michael R. Cables was elected Vice President & Treasurer of the Mechanical Contractors Association of America (MCAA) during the association's annual convention in Wailea, Maui, Hawaii, earlier this month.

Mr. Cables is executive vice president of Kinetics, the world's largest full-service mechanical contractor providing process and mechanical system installations for customers in the electronics, biopharmaceutical, healthcare, data centers, and general industries. He is based in Wilsonville, OR.

Appointed to the Board of Directors in 2005, Mr. Cables is active in the association on both the national and local levels. At the national level, he serves on the Executive Committee and the Board of Directors, and has served on the Advanced Leadership Institute (ALI), High Purity Piping and Technology Committees. He is also a graduate of MCAA's prestigious Advanced Leadership Institute (ALI).

At the local level, Mr. Cables is a member of the CPMCA Board of Directors. He also has served on the Northern California MCA Board of Directors, including as the organization's president, vice president, and treasurer. His committee work has included the Budget Committee, UA Local 393 Joint Conference Board, UA Local 342 and Local 393 Negotiating Committees. In

addition, he was a UA Local 393 Health, Welfare, and Pension Trustee as well as a JATC member for UA Local 342 and vice president of UA Local 741.

On a personal note, Mr. Cables is blessed with a lovely wife, Jennifer, as well as children and grandchildren. He and Jennifer enjoy riding their motorcycles and three weeks each year on the road together.

The Mechanical Contractors Association of America, Inc. (MCAA) serves the unique needs of approximately 2,500 firms involved in heating, air conditioning, refrigeration, plumbing, piping, and mechanical service. We do this by providing our members with high-quality educational materials and programs to help them attain the highest level of managerial and technical expertise. MCAA includes the Mechanical Service Contractors of America, the Plumbing Contractors of America, the Manufacturer/Supplier Council, the Mechanical Contracting Education and Research Foundation and the National Certified Pipe Welding Bureau.
