

Rebel Applied Service and Troubleshooting

2-Day in person and 2-Day on-line study required prior to class!

Micro Tech 4 Service & Troubleshooting, Day-1

Upon successful completion of this course, students will be able to:

- Recognize the different access levels
- Navigate to the Daikin Applied website and locate and save the appropriate resource based on product need
- Use the features of a PDF document to change the zoom level, conduct a search, save and print on laptop and phone
- Explain key terminology associated with the MicroTech 4 controller and applicable units
- Identify the sequence of operating states for a unit and describe the activity that occurs during each state

Module 1- Fundamentals

Module 2- Installation

Module 3- Startup and commissioning

Module 4- Service and networking

Principles of Micro Tech 4 is an online prerequisite for the Micro Tech 4 Service & Troubleshooting (In-person) 1-Day course.

Micro Tech® 4 Modules 1-4 (online) 1-Day course are required prior to attending Micro Tech 4 Service & Troubleshooting in person, Daikin Rebel Training. Students are encouraged to complete on-line study in advance.

Rebel Applied Service & Troubleshooting, Day-2

Upon successful completion of this course, students will be able to:

- Install and commission Daikin Rebel Rooftop units per Daikin manuals
- Identify and explain the purpose and function of Rebel components
- Describe Rebel Inverter technology and apply to common sequences of operation
- Navigate & modify adjustment settings and parameters in MicroTech® 4 controller and operate to satisfy engineering specifications.
- Utilize electrical meters, wiring diagrams, and MT 4 controller for unit diagnostics and troubleshooting.
- Set-up and operation for Daikin Rebel gas, electric, and hot-water heat
- Prepare and report accurate commissioning data on Daikin Warranty Registration Form
- Perform proper preventative maintenance per the Daikin Operations Manual

Principles of Rebel Applied Modules 0-4 (online) 1-Day is required prior to attending Rebel Service & Troubleshooting person class. Students are encouraged to complete the on-line study in advance.
