

TRANE®

Legacy Intellipak 20-130 Tons

Factory Training April 30th-May 2nd.

This course focuses on operation, start-up and maintenance of 20 to 130 ton IntelliPak I and 90 to 162 ton IntelliPak II rooftop units. Proper service techniques will be discussed to include correct maintenance procedures and intervals. Factory recommended installation and start-up procedures will also be discussed. Attendees will be able to start-up, operate and program unit control microprocessors, as well as understand control logic and check-out procedures with unit diagnostics.

Hands-On Training with a Live Fire Equipment!

Upon completion of this course, participants should be able to:

- Discuss rooftop unit functions using IntelliPak terminology.
- **Demonstrate circuit board level troubleshooting by using an Intellipak wiring diagram.**
- Discuss configuration and setup of a unit using an IntelliPak Human Interface.
- Demonstrate the proper setup procedure for cooling and heating.
- **Discuss and demonstrate pressure transducer troubleshooting.**
- Describe the basic IntelliPak sequences of operation.
- Describe scroll compressor construction and operation.
- **Diagnose and troubleshoot IntelliPak binary and analog inputs and outputs.**
- Test and verify modulating dehumidification.
