Insurance Issues

- For a **50-state review of business interruption insurance related issues** see this new COVID-19 [Insurance Litigation and Regulatory Issues Tracker](#). The Tracker is updated weekly. **(last update 4/12/20)**
- On April 14, 2020 U.S. Congressman Mike Thompson (CA-05) announced the introduction of [H.R. 6494](#), the **Business Interruption Insurance Coverage Act of 2020**. The bill has bipartisan support and, if passed, would require each insurer “that offers or makes available business interruption insurance coverage” to “make available, in all of its policies providing business interruption insurance, coverage for losses resulting from . . . any viral pandemic . . . any forced closure of businesses, or mandatory evacuation . . . or . . . any power shut-off conducted for public safety purposes.” The bill further provides that any exclusions in force on the date of the enactment of the act “shall be void to the extent” they exclude the above-specified losses. Policy exclusions may be reinstated if authorized in writing by the insured or if the insured fails to pay any increased premium charged by the insurer for providing the business interruption coverage. Insurers must provide 30 days’ notice of the increased premium or reinstatement of the exclusions. **(New)**
- On April 10 **President Trump [weighed in](#) on the issue of business interruption coverage**, stating during a two-hour coronavirus briefing that he “would like to see the insurance companies pay if they need to pay” and opining that while some policies may include exclusions for pandemics, in a lot of cases policies do not include such an exclusion.

- **More auto insurers have joined in voluntarily returning some money** to customers as the widespread government shutdowns result in a decline in driving as people shelter at home.
- On April 15, the Pennsylvania Senate **introduced [Senate Bill 1114](#)**, which if passed would **mandate that all policies insuring against loss related to property damage “shall be construed to include among the covered perils coverage for loss or property damage due to COVID-19 and coverage for loss due to a civil authority order”** related to the COVID-19 pandemic. The bill provides that Insureds classified as small business would receive 100% of the policy limit for eligible claims. All other businesses would receive 75% of the policy limit for eligible claims. The act would apply to all policies in effect prior to March 6, 2020. The Senate Bill follows a similar bill introduced by the Pennsylvania house, as well as bill introduced in South Carolina, Rhode Island, Louisiana, New York, New Jersey, Massachusetts, and Ohio. Note that New Jersey’s bill was pulled from consideration prior to the General Assembly vote. (**Updated 4/16/20**)
- On April 8, the Governor of **Colorado issued Executive Order D 2020 032** “Amending and Extending Executive Order D 2020 003 Declaring a Disaster Emergency Due to the Presence of Coronavirus Disease 2019 in Colorado.” The Order **explicitly states that “COVID-19 . . . physically contributes to property loss**, contamination, and damage due to its propensity to attach to surfaces for prolonged periods of time.” (emphasis added). Colorado’s order follows similar civil authority shutdown orders issued by the Mayors of New York City and New Orleans that explicitly provide that COVID-19 may spread from “surface to person . . . causing property loss and damage in certain circumstances.” These provisions appear calculated to provide future litigants with a plausible hook to argue for business interruption coverage where such coverage is contingent on the existence of “physical damage.”
- **New lawsuits have been filed against insurers** regarding business interruption coverage for claims arising out of the COVID-19 pandemic. These suits follow several other similar actions filed in both state and federal courts across the country. (**Updated 4/16/20**)
 - On April 15, John’s Grill, a San Francisco restaurant in business since 1908 filed [suit](#) against its insurers, including The Hartford Financial Services Group, Inc. **in California state court**. Plaintiff alleges it was forced to close as a result of the San Francisco Closure Orders, that it filed a claim for business interruption coverage, and that the Hartford wrongfully denied the claim. The Complaint alleges several claims including breach of contract, bad faith denial of insurance claim, unfair business practices and unjust enrichment. Plaintiff seeks declaratory and injunctive relief providing that Plaintiff is entitled to payment on its claim.
 - On April 15, Torre Rossa LLC filed a purported nationwide **class action in Ohio state court** against its insurer Liberty Mutual Insurance. Plaintiff alleges that policy exclusions for virus and bacteria do not apply to global pandemics, and that the insurer’s denial of coverage constitutes a breach of contract and bad faith under Ohio law.
 - On April 14, Malaube LLC dba Spris Artisan Pizza **filed suit in Florida state court** against its insurer Greenwich Insurance Co. Plaintiff alleges that it has suffered a covered loss due to business shutdown caused by the coronavirus pandemic.
 - On April 13, Moda LLC a company affiliated with shoe designer Mark Fisher Footwear LLC **filed suit in California state court** against its insurer, The Hartford Fire Insurance Co. Plaintiff alleges that The Hartford has wrongfully denied coverage for more than \$40 million in COVID-19 related business interruption losses.
