To ensure we continue to aid you during these challenging times, we want to provide a list of educational webinars for your association and contractors. Available topics include the following: Safety, Technology, and Leadership. Please see the available list of 7 options below with a general overview. Contact your Milwaukee representative for more information and to schedule a webinar.

### SAFETY
**Presenter:** Raffi Elchemmas - National Health & Safety Manager

1. **Milwaukee Health and Safety Overview:**
   - Current Covid-19 Tool cleaning protocol
   - Showcase common jobsite injuries in the construction industry
   - Outline innovations in health & safety to address them with Milwaukee solutions
   - Showcase how Milwaukee solutions fit into the Safety Hierarchy of Controls

2. **Ergonomic Safety:**
   - Showcase the causes and risk factors of ergonomic injuries in the construction industry
   - Provide a step by step process to reduce and recognize ergonomic injuries on the jobsite
   - Discuss recommended ways of preparing for tooling tasks to minimize risk for ergonomic injury
   - Identify traits of tools that help you achieve that goal by using cutting edge scientific measurement equipment to quantity the levels of ergonomic risk of a tool

3. **Protection From Silica Exposure:**
   - Review what silica is, who is at risk, and what are the risks
   - Discuss the OSHA regulation, background, and best practices to protect against silica exposure
   - Review Milwaukee Table 1 compliant solutions

### TECHNOLOGY
**Presenter:** Tauhira Ali - Sr. Manager of Construction Technology

4. **Overview of Construction Technology:**
   - Discuss how industry leaders & early adopters view emerging tech solutions
   - Determine evaluation metrics for the unique needs of your organization
   - Position your team to learn, elevate knowledge, and cultivate expertise
   - Educate and increase engagement across all levels of your organization

### LEADERSHIP
**Presenter:** Tauhira Ali – Sr. Manager of Construction Technology

5. **Diversity, Culture, & Innovation:**
   - Develop an atmosphere of inclusion throughout your organization
   - Leverage multiple viewpoints to create a resilient company strategy
   - Engage multi-generational leaders to investigate and create best practices
   - Build a robust innovation culture to uniquely serve the needs of your team

6. **Recruiting, Retaining Employees:**
   - Generate a strategy for attracting new workers to your company
   - Accelerate training and growth plans for employees, help them to thrive
   - Build a culture of loyalty and pride to keep your team engaged
   - Celebrate different perspectives and backgrounds while creating a safe and authentic work environment

7. **Women's Leadership:**
   - In 2018, there were almost 76 million women in the US labor force, representing 46.9% of the total workforce
   - In the same year, 80% of contractors across the country reported trouble hiring skilled workers
   - Women represent 9.9% of the workforce in construction but only 3.4% of employees in the field
   - Discuss what it will take for women to represent a larger percentage of the industry and the effects of this on construction’s workforce shortage.
   - Learn how creating a culture of inclusion will drive profit for your company’s bottom line
Below is a selection of different resources that Milwaukee Tool Leadership has identified to be most impactful to their teams, as we all continue to navigate through this difficult time. Follow the links provided to read or listen at your convenience.

Our distribution center is still operating at 100%. Expect normal turn times on orders.

- Any COVID-19 related emergency order will be processed within 1 hour. Reach out to your local representative for assistance in expediting your order.

Stock levels for our M12 and M18 cordless systems, jobsite lighting, accessories, hand tool and storage products are strong. We have what you need to get the job done.

**NOTE: Due to the global surge in demand for PPE products brought on by COVID-19, our inventories on respirators have been depleted. We are working diligently to correct this situation, and remain committed to working with our distributor partners to prioritize shipments to healthcare workers, first responders, and our core tradespeople who continue working around the clock to keep the country operating. All other PPE is currently in stock.**
We are all in this together, and we are happy to do our part. Recently Milwaukee Tool donated 600 HEPA filters for the Milwaukee Police Department’s respirator masks, 3D printed by GSC.

MPD Detective Eric Draeger: “This gives us a way to not only protect ourselves and our families, but also to stay in the fight. That gets right at the heart of what it is to be a police officer. Thank you to GSC and Milwaukee Tool for putting this together in such a short period of time. I know the officers in the Milwaukee Police Department also say thank you for this.”
Despite travel restrictions, the continued support of our sales team doesn’t change. Please reach out to your Milwaukee Tool representative for the latest information regarding new product announcements, current promotions or anything else you need. We are just one phone call or email away.

In addition, Milwaukee Tool’s *Heavy Duty News* gets you the latest updates and information sent directly to your inbox!
