

# TRIANGLE

# FIRE RETARDANT MASKS

The White House Taskforce recommends double layer cloth face masks for essential workers and the general public to aid in diminishing the spread of the Coronavirus. In addition, to our CDC compliant cloth masks Triangle now offers FIRE RETARDANT (FR) Masks to comply with FR clothing requirements in factories and industrial plants.

Fire Retardant Masks are made of double layer 5.5 oz/Yd<sup>2</sup> cloth composed of Tencel, Modacrylic & Aramid. Masks provide outstanding breathability and optimized moisture management to keep wearer cooler, drier and more comfortable.

Arc Rating (APTV): 6.6 cal/cm<sup>2</sup> (NFPA 2112 Certified – ASTM F1930)

#### FEATURES:

- *Double layered per CDC guidelines.*
- *Recommended by the White House Taskforce in addition to social distancing.*
- *One size fits most adults and discourages touching of face.*
- *Reusable and washable.*
- *Reversible design (Same color on both sides. Colors vary depending on supply).*
- *Great comfortable contoured fit.*
- *Hard hat compatible (strap ties behind the neck to avoid hard hat liner)*
- *Fabricated by Triangle Enterprises by sewing professionals.*

#### Recommendations For Use:

*Wash daily. Do not use fabric softener.*

*Not intended for health care providers.*
