TO: Signers to the National Service and Maintenance Agreement
FROM: Joint UA/MSCA Labor Committee
RE: Extension of National Service and Maintenance Agreement

The United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada and the Mechanical Service Contractors of America have jointly agreed to extend the termination date of the current National Service and Maintenance Agreement, dated August 1, 2015 – July 31, 2020, until July 31, 2021. Considering the current coronavirus pandemic, it was determined that the most prudent course of action at this time was to extend the Agreement in lieu of negotiating under these challenging circumstances. All current signers to the National Agreement remain bound to the terms of the Agreement and obligated to its current provisions until such time that the Agreement is terminated by either the United Association or a signatory contractor.
