

The Mechanical Contractors Association of America's student chapter program is dedicated to helping students prepare for careers in the mechanical construction industry. When a student joins a chapter, they receive support and resources from all three sponsoring entities (MCAA, Local Affiliate Association, and the College/ University). Each student chapter partners with the MCAA team to provide industry related training, professional development, and networking opportunities. Additionally, MCAA will assist student members by facilitating connections that will ultimately put them on a track of success for landing their first internship or full-time job.

Benefits Include:

- 1** MCAA's network of over 2,600 contractor member companies and 122 Manufacturer/Supplier Council members looking to hire.
- 2** Access to your local affiliated association for assistance with networking events, mentoring, chapter fundraisers, internships or job placements with local members, community service projects, and additional knowledge about the industry through seminars and a variety of meeting topics. Not staying local? MCAA has over 90 local chapters ready to help wherever you land.
- 3** The opportunity to compete in the annual MCAA Student Chapter Competition. Over \$25,000 in prizes are awarded, with first place receiving a \$10,000 check.
- 4** Attendance at the GreatFutures Forum, a national student-focused conference that's packed full of relevant education, peer-to-peer roundtables, a mechanical tour, and an industry specific job fair.
- 5** Complimentary registration and nationwide networking at:
 - MEP Innovation Conference (Technology)
 - Safety Directors' Conference (Safety)
 - MCAA Annual Convention (All Things Mechanical Contracting)
 - GreatFutures Forum (Student-Focused Conference)
 - MCSA Annual Education Conference (Mechanical Service)
- 6** Nearly \$60,000 in scholarships and grants are awarded annually to individual students and their chapters. Newly chartered chapters are also encouraged to apply for a \$5,000 Emerging Chapter Grant, which may be awarded three times during a chapter's first five years.
